An exchange says "The opposition some women have to bloomers depends upon the figure they would cut in them."

The first home made cabbage came to market Monday from the garden of J. C. Parsons. It shows fine for the time of year.

Street Commissioner Alex Lowry and Judge Wilson have been improving the streets this week. A good soaking rain now would settle the dust.

Attorney G. Guthrie has fitted up the first building south of the court house for a law office where all in need of legal advice will find him.

Can it be possible that the woman who is loudest in her objections to bloomers is the one who makes the greatest display of hosiery when going over a street crossing?—Seward Blade.

A. McGinley went to Crawford the last of the week and found that he held the winning ticket in a drawing and is the richer by a new wagon. There is no accounting for the luck some people have.

The indications are that no attempt will be made to enforce the Russian thistle law in this county. The government has too much land here which is beyond the jurisdiction of the road overseers.

It may not pay to dig potatoes when small but Gustav Norriesch brought some in and sold them at a rate which would bring him about \$230.00 an acre. That is nearly as much as Sioux county land is worth an acre.

The taking of testimony in the contest of Newman vs. Nichols began on Saturday and continued until Wednesday afternoon. It was the longest contest that has ever occurred over a piece of Sioux county land. G. Guthrie was attorney for Nichols.

A number went from here to Fort Robinson to see the game of ball last Sunday between the Chadron and Robinson clubs. The latter were victorious and as a result the Chadron special was the "swearing train" on the return trip.

On last Friday July 12, Edwin Guthrie was nine years old and he invited his friends to spend the hours from 2 to 5 o'clock in "fun" as boys of that age interpret the word. Ice cream and cake were stowed away in quantities by Ray Myers, Howard Smuck, Willie Bartell, Archie Davis, Linley Priddy, Charlie Richstein, Otto Hough, Fritz Richstein, Gene Williams, Willie Scott and Edwin Guthrie.

It is said that the Studebaker wagon company is going to wage war with the manufacturers of high priced wheels. They claim that the enormous demand has crippled the sale for four wheel vehicles and in order to recoup themselves they will manufacture a high grade wheel for only \$25. The Studebaker Co. is a large one, and is capable of backing up the assertion with a large capital.—Seward Reporter.

The crop reports from various parts of northwest Nebraska are rather discouraging. From what can be learned Sioux county is about as well off as any of them. Here it is decidedly spotted. In some localities the prospects are good and in others but a short distance away they are bad. The general yield will likely be somewhat more than that of last year. Irrigated crops will be all right and some on the table will yield well, but the general crop will be far below what was expected.

Joseph Hibbeln was in town Monday and arranged to have a sale of his property as advertised in another column. He has a fine place for handling stock.

A nice little shower fell here yesterday afternoon and did a good deal of good, but it was but a local shower. If rain does not soon come crops will be pretty short.

Complaint is made that children play in the watering trough at the public reservoir and get the water so dirty that horses will not drink it. Either the parents should see that their children keep out of it or the authorities should take a hand in the matter.

If you would have an abundance of dark, glossy hair, if you would have a clean scalp, free from dandruff and irritating humors, or if your hair is faded and gray, and you would have its natural color restored, use Ayer's Hair Vigor. It is unquestionably the best dressing.

To make your business pay, good health is a prime factor. To secure good health, the blood should be kept pure and vigorous by the use of Ayer's Sarsaparilla. When the vital fluid is impure and sluggish, there can be neither health, strength, nor ambition.

By a recent decision of the court Andrew Christian of Pleasant Ridge, was declared to have been elected to the office of county commissioner of Converse county, Wyo. Mr. Christian is to be congratulated on the outcome of his contest and if he uses the same methods in his public life that he has in private matters his county is also to be congratulated.

On investigation it has been found that the school house will need to be newly plastered and considerable other expense put on it to make it fit for use. There is talk of calling a special meeting for the purpose of taking action in the matter. It is doubtful if the building is safe now and steps should be taken to prevent any accident. It would be very poor policy to expend much money on that building, especially in its present unsuitable location.

Wednesday July 17 was Miss Edna Rowner's seventh birthday and she celebrated the event by giving an impromptu party to some of her little friends and after spending the afternoon in playing games, ice cream, cake and other delicacies of the season were served to Effie Wright, Dottie Patterson, Myrtle Scott, Minnie and Ona Sutton, and Minnie Simmons, and Elsie and Edna Edna Rohwer.

Duel county has one road overseer who is bound to see that the new state law relative to destruction of Russian thistles is carried out. He recently sent the following letter by registered mail: GROVER CLEVELAND, President U. S. Washington, D. C.

DEAR SIR: You are hereby notified that you will be given five days to remove Russian thistles from off government land. Failing to do so, I will destroy them and tax the cost up to you. (Signed)

Road Overseer. We haven't yet learned of the answer to this bright epistle.—Alliance Grip.

An exchange asserts that a man who won't take a paper because he can borrow one, has invented a machine by which he can cook his dinner by the smoke from his neighbor's chimney. The same fellow sits in the back pew in church to save interest on his contributions, and is always borrowing a ride to town to save the wear and tear on his horse flesh. Yes, we know him. He is first cousin to the man who never winds up his watch for fear of breaking or wearing the main spring. He undoubtedly is a near relative to the man who went into the back yard during a cold snap, soaked his hair in water, let it freeze and then broke it off in order to cheat the barber out of a hair cut.

To the Teachers of Sioux County.

It is with deep regret that I must notify you that no institute will be held in Sioux county this year. Our aid from the county has been cut off entirely, resulting from the greatly decreased assessed valuation of property in the county from which the county's revenue is derived.

The expense connected with the holding of a two week's institute is so much that unless we do receive this aid,—which with one exception has always been given each year—we cannot, without very great expense to each teacher, hold one.

Our neighboring counties, Dawes and Box Butte, will hold institutes during the following time: Box Butte, July 22 to August 3; Dawes, August 5 to August 17 and I earnestly request that all teachers who possible can, attend one or the other of these.

Examination will be held at Harrison on August 16 and 17, and those who are not attending institutes elsewhere will be expected to be present, and take examination, and at this time we will organize a reading circle and teachers' association, if possible.

Very Truly, W. H. DAVIS, Co. Supt.

Notice to Delinquent Tax Payers.

I wish to call your attention to the fact that the County Treasurers have been very lenient with you during the several crop failures and as nearly all school districts are in need of money and the prospects are good for fine crops this year, I shall insist upon the payment of your personal taxes. Gentlemen they have stood long enough.

Very Respectfully, H. S. WOODRUFF, County Treasurer.

Why Was It

that Ayer's Sarsaparilla, out of the great number of similar preparations manufactured throughout the world, was the only medicine of its kind admitted at the World's Fair, Chicago? And why was it that, in spite of the united efforts of the manufacturers of other preparations, the decision of the World's Fair Directors was not reversed?

BECAUSE According to Article 15—"Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition," and, therefore—

Because Ayer's Sarsaparilla is not a patent medicine, not a nostrum, and not a secret preparation.

Because its proprietors had nothing to conceal when questioned as to the formula from which it is compounded.

Because it is all that it is claimed to be—a Compound Concentrated Extract of Sarsaparilla, and in every sense, worthy the endorsement of the most important committee, called together for passing upon the manufactured products of the entire world.
